INSTALLATION GUIDE

HYLUX Bi-Xenon HID System

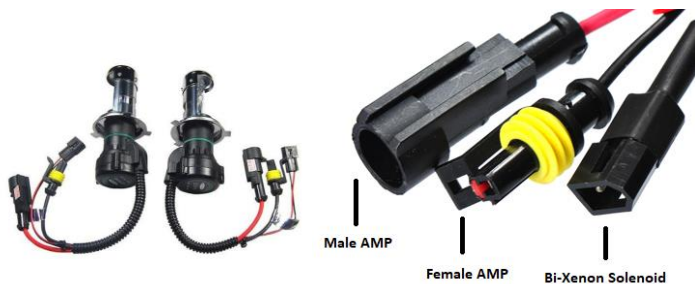

HID Kit Pros
60 NW Gilman Blvd.
Issaquah, WA 98027

sales@hidkitpros.com

www.hidkitpros.com

KIT COMPONENTS

2X BI-XENON HID BULBS

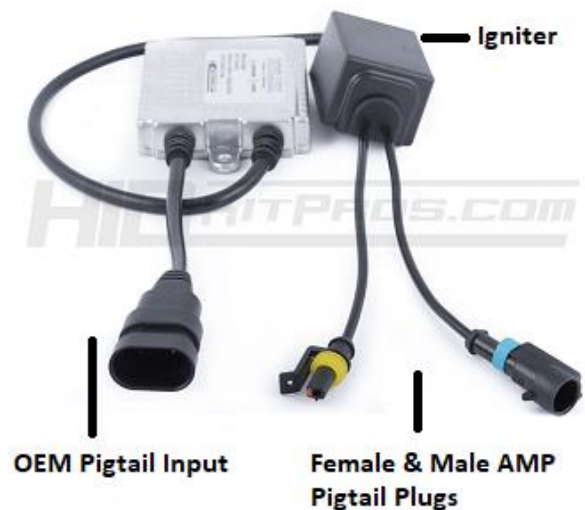

1 X BI-XENON WIRING HARNESS

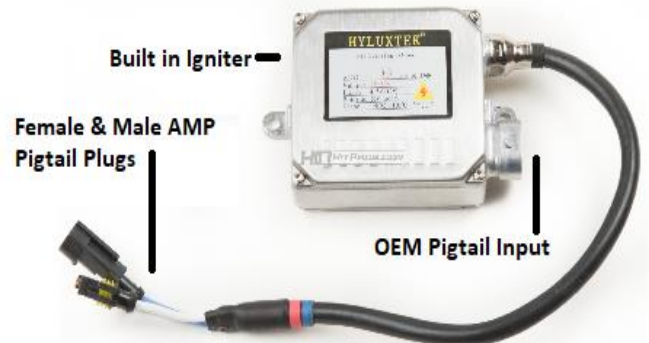

2X HID BALLASTS

35W (A2088)

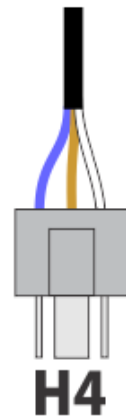

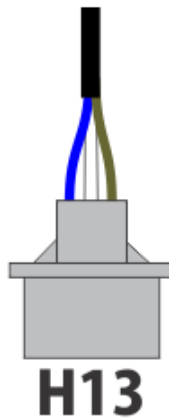

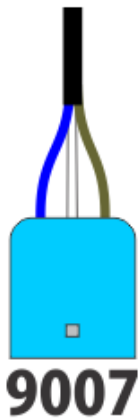

50W (A0050)

Connections Explained

INPUT FROM CAR (STYLE VARIES)

 **HIGH BEAM**
 **LOW BEAM**
 **GROUND**

Helpful Tips

- **BI-XENON CONTROLLER DOES NOT GET HOT ENOUGH TO MELT ANY TYPE OF PLASTICS UNDER THE HOOD. IT DOES NEED TO BE MOUNTED VERTICALLY WITH THE WIRES IN THE DOWNWARD DIRECTION TO AVOID WATER GETTING IN TO THE WIRES.**
- **MOUNT BALLASTS WITH CONNECTIONS FACING DOWN TO AVOID WATER GETTING INSIDE.**
- **NOTE THAT ONE SIDE OF THE VEHICLE (SIDE FURTHEST FROM THE BATTERY) WILL NOT HAVE A CONNECTION GOING IN TO IT, WE RECOMMEND TAPING OFF THE CONNECTOR AND TYING IT UP AS IT IS NOT USED.**
